Were you promised a legal job in coming to Europe but discover you must now work illegally?

Is someone forcing you to work in prostitution or is someone preventing you from stopping?

Have your identification/personal papers been taken away from you?

Has the money you have earned from working in prostitution or working illegally been taken away from you to pay off your 'debts'?

Are you concerned that harm will come to your family in your home country if you do not follow orders?

Have you been frightened, hurt, or imprisoned?

Have you been raped or forced to perform sexual acts?

Do you feel that the police would not be able to help you?

Everyone has the right to liberty and security of person
